

Career Objective

Motivated Computer Science Engineering undergraduate with strong academic performance and practical exposure to front-end and basic back-end web technologies. Experienced in developing and deploying cloud-based web applications using AWS EC2 and S3. Seeking internship opportunities to apply technical skills, enhance full-stack development knowledge, and contribute to real-world software projects.

Education

Bachelor of Engineering (B.E) – Computer Science Engineering

S.A. Engineering College, Chennai
CGPA: 8.91

2026 – Present

Technical Skills

Cloud Computing

- Amazon Web Services (AWS): EC2, S3
- Cloud-Based Application Deployment
- Linux Server Management
- Security Groups and Network Configuration

Web Development

- HTML5, CSS3, JavaScript (ES6)
- Responsive Web Design and DOM Manipulation
- Client–Server Architecture and HTTP Methods (GET, POST)
- Form Handling and REST API Fundamentals
- Familiarity with React, Angular, Node.js, Django (Conceptual)

Programming Languages

Java, C, Python

Tools and Technologies

Git, GitHub, Visual Studio Code, Browser Developer Tools, Linux Command Line (Basic)

Projects

Subscription-Based E-Commerce Website — AWS Cloud Deployment

- Built a responsive e-commerce website using HTML5, CSS3, and JavaScript
- Implemented product listing, cart functionality, and subscription flow
- Applied client–server concepts, HTTP methods, and form data handling
- Deployed the application on AWS EC2 with static assets hosted on Amazon S3
- Configured AWS security groups for secure and controlled access

Soft Skills

- Strong problem-solving and analytical skills
- Understanding of front-end and back-end web technologies
- Ability to work independently and in a team environment
- Eagerness to learn and adapt to new technologies

Certifications and Continuous Learning

- AWS Cloud Fundamentals – Self Learning
- Web Development (HTML, CSS, JavaScript)
- Ongoing learning in Cloud Computing, DevOps basics, and Software Development
